Art Unit 2761

1. Applicant should note the changes to patent practice and procedure effective December 01, 1997 as published in the Federal Register, Vol 62, No. 197, Friday October 10, 1997.

2. The use of various trademark(s) at page(s) 2, 7, 9, 10, 11 & 33-35 has been noted in this application. Any trademarks should be capitalized wherever they appear and be accompanied by the generic terminology.

2.1 Although the use of trademarks is permissible in patent applications, the proprietary nature of the marks should be respected and every effort made to prevent their use in any manner which might adversely affect their validity as trademarks.

3. The drawings are objected to because:

A) the following errors have been noted in the drawings:

(1) the drawings lack programs 44 as disclosed at:

(a) page 7, lines 24, 25 & 31;

(b) page 8, lines 9 & 12; and

(c) page 13, line 24;

and as required by 37 CFR § 1.84(p(5)).

(2) the drawings lack reference number 81 as disclosed at page 33, line 3,

and as required by 37 CFR § 1.84(p(5)).

Correction is required.

3.1 Applicant is required to submit a proposed drawing correction in response to this Office action (37 CFR § 1.123). However, correction of the noted defect can be deferred until the application is allowed by the examiner.

4. The disclosure is objected to because of the following informalities:

A) applicant must update:

(1) the continuing data on page 1; and

(2) the application data on pages 1 & 12,

with the current status of each of the referenced applications, e.g., --now abandoned--, or --now patent #?--, or --which is abandoned and now serial number #?--, etc.

B) the following errors have been noted in the specification:

(1) appendices I through X (1-10) lack the margins required by 37 CFR §

Art Unit 2761

1.52(b). (Note pages 13-16, 18, 19, 21-25, 28-31, 33 & 34 which mention the appendices).

Appropriate correction is required.

5. The specification and drawings have not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification or drawings. Applicant should note the requirements of 37 CFR § 1.74, § 1.75, & § 1.84(o,p(5)).

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6.1 Claims 79-87, 90, 103-112 & 114-120 are rejected under 35 U.S.C. § 102(b) as being clearly anticipated by Dworkin (4,992,940).

6.1.1 In regard to claims 79-87, 90, 103-112 & 114-120, Dworkin ('940) discloses a centralized ordering system. This centralized ordering system of Dworkin ('940) includes a data base that contains a number of different categories (i.e. first criteria) that are collections of similar/equivalent products from a number of different vendor catalogs. These categories of various products are available to the user for selecting various related products. Based on the user's search request, (i.e. second criteria) the system of Dworkin ('940) searches through the vendor/product database for matching categories and products. The results of the search, i.e. matching products, are returned to the user. Based on the returned matching product information, the user may create the one or more requisition orders necessary to purchase the selected items according to the vendor's requirements for a requisition order.

7. Art of interest, which does not teach or suggest;

A) converting items found in one vendor's catalog to equivalent products in another vendor's catalog, (claims 88, 89, 91-102 & 113),
is cited by the examiner.

8. It is noted that the application file for the base application serial number 08/288,577 is

Art Unit 2761

unavailable to the examiner for the consideration of double patenting issues.

9. Claims 88, 89 & 113 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

10. The shorten statutory period of response is set to expire 3 (three) months from the mailing date of this Office action.

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Edward Cosimano whose telephone number is (703) 305-9783. The examiner can normally be reached Monday through Thursday from 7:30am to 6:00pm. Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 305-3800.

11.1 The fax phone number for **UNOFFICIAL FAXES** for this group is (703) 305-0040.

11.2 The fax phone number for **OFFICIAL FAXES** for this group is either (703) 308-9051 or (703) 308-9052.
